Division of Aging and Adult Services ALERT

SFY-13-10A

Policy and Procedures for SFY-2013

Policy and Procedure ALERTS are intended to notify Area Agencies on Aging (AAAs) and other contract partners of newly developed or revised Division of Aging and Adult Services (DAAS) Policies and Procedures. Periodically, policy is developed due to changes in federal program policy as well as to respond to requests for clarification of existing policy by contracted providers. Please ensure that the appropriate Area Agency on Aging personnel is aware of these revisions.

Background

Congressional appropriations for Federal Fiscal Year 2012 require that Older Americans Act Title IIID funding be used only for programs and activities which have been demonstrated to be evidence-based and effective supporting health lifestyles and promoting healthy behaviors. Chapter 3300 is a newly developed Policy and Procedures and designated for Disease Prevention and Health Promotion Services. There are also revisions to the corresponding Scope of Work for Disease Prevention and Health Promotion, and information on that can be found in Technical Assistance ALERT SFY-13-12B. The drafted policy and procedures can be found in **Attachment A** of this ALERT. A Disease Prevention and Health Promotion Services Quarterly Report draft has been created (**Attachment B**). This report will be required as stated in 3306.2 of the new Chapter 3300. The first quarterly report will be due January 25, 2013.

Implementation

The DRAFT of the DAAS Policy and Procedure Manual, Chapter 3300 will be posted on the DAAS website for review and feedback. Area Agencies on Aging should coordinate with one another to prepare a single response of feedback/comments. Please submit comments in writing to jecain@azdes.gov no later than July 30, 2012. Comments received by DAAS will be addressed and a revised draft will be posted. Conference calls or webinars with Area Agencies on Aging will be scheduled in August 2012 to allow for discussion of changes. The final revisions to Chapter 3300 will go into effect on October 1, 2012. The Reports Matrix, Chapter 1000, 1600U is updated to include the Disease Prevention and Health Promotion Services Quarterly Report (Attachment C).

Kev Dates

June 29, 2012	DRAFT Chapter 3300 available for review				
July 30, 2012	Last day for AAAs to submit a single coordinated set of comments to DAAS				
	on the draft

Policy and Procedure Manual Chapter 3000 – Services and Programs

	3300	Disease Prevention and Health Promotion Services						
	3301	Overview						
3300	3301.1	This section provides an outline of the Division of Aging and Adult Services operational policies and procedures for Disease Prevention and Health Promotion						
3300	3301.2	The Division of Aging and Adult Services, through its contracts with the Area Agencies on Aging (AAAs), shall provide Disease Prevention and Health Promotion Services to older adults and eligible persons with disabilities. These services help reduce the impact of disease, chronic conditions, and minimize health-related risk factors associated with aging. Many programs including evidence-based programs assist older adults to prevent illness and manage chronic physical conditions. Although illness and disability rates increase with age, research has demonstrated that health promotion and disease prevention activities can help promote healthy and independent lives for older individuals. Disease Prevention and Health Promotion Services contribute to healthy aging and the maintenance of optimal physical, mental, and social well-being in older adults. An active healthy lifestyle can help older adults prolong their independence and improve their quality of life.						
	3301.3	Older Americans Act (OAA) Title IIID funding is intended to initiate programs designed to help older adults prevent and/or manage chronic diseases and promote healthier lifestyles. Healthy aging reduces healthcare costs and improves quality of life for older adults. Evidence-based programs are shown to be effective at helping participants adopt healthy behaviors, improve their health status, and reduce their use of hospital services and emergency room visits. Older Americans are disproportionately affected by chronic disease and evidence-based programs can mitigate the negative impact of chronic diseases and related injuries. Furthermore, evidence-based programs empower older adults to take control of their health by maintaining a healthy lifestyle through increased self-efficacy and self-management.						
	3300	Disease Prevention and Health Promotion Services						
	3302	Authority and Statutory Requirement						
3300	3302.1	Disease Prevention and Health Promotion Services are authorized and governed by the following statute and regulation for the use of Title IIID funding by the Older Americans Act (OAA) and AoA.						
		Older Americans Act, Section 361:						
	3302.2	http://www.aoa.gov/AoA_programs/OAA/oaa_full.asp#_Toc153957705						
	2202	Operational Procedures for Disease Prevention and Health Promotion						
	3303	Services Eligibility						
3300	3303.1	The following individuals are eligible to receive disease prevention and health promotion services:						
8		A An individual age sixty or older;B An individual with a disability (funds other than OAA must be used);						
		An individual with a disability (funds other than OAA flids) be used),

Effective Date: 10-01-2012

Policy and Procedure Manual Chapter 3000 - Services and Programs

	3300	Disease Prevention and Health Promotion Services			
	3304.4	The AAA, or entity that such agency has contracted with, shall ensure that their intake, outreach, and community education processes include providing information and assistance to a person(s) inquiring about disease prevention and health promotion services and programs.			
	3304.5	The AAA, or entity that such agency has contracted with, shall ensure the provision of the full range of Disease Prevention and Health Promotion services and programs in the community by coordinating its activities with the activities of other community agencies and voluntary organizations providing supportive services and programs to older individuals. Partnerships extend the reach of Disease Prevention and Health Promotion services and programs, and can include: where applicable, community health centers, mental health centers, state and local government agencies, centers for independent living, public health departments, state and local non-profit organizations, educational and/or health care institutions, community organizations, or other identified entities.			
	Effective 7/1/2014, AAAs must meet the highest-level criteria for Disease Prevention and Health Promotion programs, and allocate the amount of funds necessary achieve region-wide availability of AoA approved evidence-based programs. Technical assistance from DAAS will be provided in meeting this requirement.				
	3305	Operational Procedures for Monitoring of Disease Prevention and Health Promotion Services			
	3305.1	The AAAs will ensure certification and licensure standards are met when providing an evidenced-based program for which licensing or certification requirements exist.			
-	3305.2	For delivery of services identified in 3304.3.A, the AAAs will ensure that educators/presenters providing health promotion activities meet appropriate certification/licensure standards.			
	3306	Operational Procedures for Reporting Requirements			
	3306.1	The AAAs shall collect data and maintain records as defined in the Division of Aging and Adult Service Policy and Procedure Manual Section 1600. https://www.azdes.gov/common.aspx?menu=36&menuc=28&id=8252			
	3306.2	The AAAs will provide quarterly reports to the Division of Aging and Adult Services about health promotion and disease prevention activities using the Division of Aging and Adult Services/AAA Disease Prevention and Health Promotion Quarterly Report document.

Instructions for Preparing the Quarterly Report

FORMAT

Quarterly progress reports should give the DAAS Health and Wellness Coordinator sufficient information for a full understanding of Disease Prevention and Health Promotion performance. No page minimum or limitations are prescribed regarding the length of the report. Fully respond to each of the information categories covered by the report.

REPORT CONTENTS - Please follow this format

1. Major activities and accomplishments during this period

Summarize Disease Prevention/Health Promotion activities and accomplishments that occurred during the reporting period. Reference should be made to each of the services provided by the AAA's designated health promotion staff and included in the AAA's current Methodology.

2. Problems/barriers and how it was addressed

Describe any deviations or departures from the AAA's Disease Prevention and Health Promotion Methodology. Describe the problem, alternatives considered to resolve the problem, and the impact of the problem on achieving program goals and objectives.

3. Dissemination activities (outreach)

Describe dissemination activities that occurred in the three-month period. Dissemination materials should be included as an attachment to the report (i.e. copies of flyers, newsletters/newspaper articles, new locally produced brochures, etc.).

4. Best practices and/or program Innovations

Describe best practices or disease prevention/health promotion innovations that have been successful in the planning and service area.

5. Technical assistance or support needed from Division of Aging and Adult Services

Fully describe the type of technical assistance needed. Include rationale or reason for the requested support. Indicate whether on-site technical assistance is needed.

6. Vignettes

Include anecdotal information or descriptions of situations where services provided through the Disease Prevention and Health Promotion Services positively affected the lives of the person served.

7. Disease Prevention and Health Promotion Programs

- A. Minimal Criteria: provide the health screening/assessment activities and describe the services offered during the reporting period.
- B. Intermediate Criteria: Provide the name of the program offered and indicate the total number of classes held and how many attendees came to the class. Provide useful comments regarding the program.
- C. Highest Criteria: Provide the name of the program offered and indicate the total number of classes held and how many attendees came to the class. Provide useful comments regarding the program.

Equal Opportunity Employer/Program • Under Titles VI and VII of the Civil Rights Act of 1964 (Title VI & VII), and the Americans with Disabilities Act of 1990 (ADA), Section 504 of the Rehabilitation Act of 1973, the Age Discrimination Act of 1975, and Title II of the Genetic Information Nondiscrimination Act (GINA) of 2008; the Department prohibits discrimination in admissions, programs, services, activities, or employment based on race, color, religion, sex, national origin, age, disability, genetics and retaliation. The Department must make a reasonable accommodation to allow a person with a disability to take part in a program, service or activity. For example, this means if necessary, the Department must provide sign language interpreters for people who are deaf, a wheelchair accessible location, or enlarged print materials. It also means that the Department will take any other reasonable action that allows you to take part in and understand a program or activity, including making reasonable changes to an activity. If you believe that you will not be able to understand or take part in a program or activity because of your disability, please let us know of your disability needs in advance if at all possible. To request this document in alternative format or for further information about this policy, call 602-542-4446; TTY/TDD Services: 7-1-1. • Free language assistance for DES services is available upon request.

Division of Aging and Adult Services ALERT

SFY-13-12A

Technical Assistance for SFY-2013

Technical Assistance ALERTS are generated periodically to update contractual and/or programmatic requirements and/or clarifications.

The purpose of this ALERT is to notify Area Agencies on Aging (AAAs) of revisions to the Public Health – Disease Prevention and Health Promotion Scope of Work (SOW).

Medication Management Update:

The Administration on Aging (AoA) removed the requirement that a portion of Title III-D funds be used to support medication management. The twenty-five percent requirement for activities related to medication management, screening, and education to prevent incorrect medication and adverse drug reactions will no longer be in effect starting July 1, 2012. The service code of MED will no longer be available for use effective July 1, 2013.

Program Update:

Beginning with Federal Fiscal Year 2012, the Administration on Aging (AoA) issued new requirements that Older Americans Act (OAA) Title IIID funding be used only for programs and activities which have been demonstrated through rigorous evaluation to be evidence-based and effective. The AoA uses a graduated or tiered set of criteria (minimal, intermediate or highest) for defining evidence-based interventions and implemented through the OAA. The tiers are further defined in the Division of Aging and Adult Services Policy and Procedures Manual, Chapter 3300 - Disease Prevention and Health Promotion Services. Services or programs that meet any level of evidence, as described by AoA, fulfill the federal evidence-based requirement at this time.

The SOW has been revised and retitled from "Public Health – Disease Prevention and Health Promotion" to "Health Education – Disease Prevention and Health Promotion". The SOW removes the requirement for tracking medication management and adds language clarifying the requirements for evidence-based services and programs. The drafted SOW for Disease Prevention and Health Promotion Services can be found in **Attachment A** of this ALERT. Changed elements of the SOW have been highlighted. The current service codes associated with this SOW may be consolidated with the new data system.

AAAs should analyze current activities funded through Title IIID as requested in Alert SFY-13-10A. If an activity does not meet the guidelines described above, the AAA needs to develop a plan to shift all funding to activities that are evidence-based at any level (minimal, intermediate, or highest). AAAs are encouraged to proceed with programs that meet AoA's highest level criteria. The Health and Wellness Coordinator will work with each AAA to develop a plan to move toward the highest level criteria by 2015.

Changes to the language of SOW will be included in the next Contract Amendment. Should you have any questions related to the SOW revision, please contact Jennifer Cain at jecain@azdes.gov or 602-542-0809 or your assigned Contract Specialist.

Scope of Work

Arizona Department of Economic Security (DES) - Area Agencies on Aging

38.0 HEALTH EDUCATION – DISEASE PREVENTION AND HEALTH PROMOTION

- 38.5.2 Number of participants completing evidence-based programs.
- 38.5.3 Number of screening events held annually.

38.6 Reporting Unit

38.6.1 One unit of service equals one activity.

Division of Aging and Adult Services ALERT

SFY-13-12B

Technical Assistance for SFY-2013

Technical Assistance ALERTS are generated periodically to update contractual and/or programmatic requirements and/or clarifications.

As a result of Arizona Senate Bill 1082 (from the 2011 Fiftieth Legislature), the term "vulnerable adults" was added to many sections of A.R.S. 46-141. A.R.S. 46-141.A <u>now</u> specifies that ADES contractors' personnel (whether paid or not) who provide direct services to <u>vulnerable adults</u> shall, as a condition of employment, have a valid fingerprint clearance card or shall apply for a fingerprint clearance card within seven working days of employment.

After careful review, ADES Management determined the need to <u>replace</u> ADES Special Term and Condition Fingerprinting section 22.1.1 with a DAAS Special Term and Condition.

The <u>current</u> ADES Special Term and Condition Fingerprinting 22.1.1 states:

"Personnel who are employed by the Contractor, whether paid or not, and who are required or allowed to provide services directly to juveniles or vulnerable adults shall submit a full set of fingerprints to the Department for the purpose of obtaining a state and federal criminal records check pursuant to section 41-1750 and Public Law 92-544 or shall apply for fingerprint clearance card within seven working days of employment."

The <u>new DAAS</u> Special Term and Condition will <u>replace</u> the above and will be amended into all non-Tribal Area Agencies on Aging contracts, and states:

"Effective immediately, Contractor and subcontractor staff who are required or allowed to provide services directly to juveniles or vulnerable adults shall possess a fingerprint clearance card that meets Level One requirements as described in ARS 41-1758.07, OR, if waiting receipt of their clearance card, shall provide services under direct visual supervision and oversight of an employee who possesses a Level One fingerprint clearance card until they are issued a valid fingerprint clearance card that meets the Level One requirements. Contractor and subcontractor staff include current employees whether paid or not who transfer into a direct service position, volunteers, and new employees whether paid or not."

Should you have any questions related to this ALERT, please contact your assigned Contract Specialist.
