DDD Announces Appointment of Finance Manager
Mr. Bryon Winston

I am pleased to announce that **Mr. Bryon Winston** has accepted the position of **Finance Manager** for DDD. Mr. Winston has been serving as the interim Finance Manager for DDD since December 2013.

Bryon moved to Arizona in 1983 from Ramstein, Germany. He graduated from Arizona State University with a degree in Accountancy. He began working for the State of Arizona in 1994 with the Arizona Department of Education as a Fiscal Services Specialist managing Federal Grants. From there, Bryon moved to the Arizona Disease Control Research Commission and managed grants related to disease research for about a year and half. Bryon began working for DES in the former budget office, which is now part of the Financial Services Administration (FSA). Bryon's tenure in FSA lasted about seven years where he had the opportunity to learn the budget, finance, and federal reporting functions for most of DES' Divisions. After ten years with the State of Arizona, Bryon left DES to pursue his dream of running his own business. During that period, he opened two new businesses and purchased one existing business. He eventually sold off his business interests and returned to DES in DDD's Health Care Services at the end of July 2013 as their Business Manager.

Bryon is very excited to be with DES and looks forward to what he hopes will be another long tenure with DES/DDD.

Bryon's first official day as DDD's Finance Manager will be April 14, 2014. *Please join me in congratulating and welcoming Bryon!*

Thank you,

Laura
